Installing the fixture

please ensure the electrical breaker is in the Off position before commencing

1	Attach the Mounting bracket **(A)** to the Junction Box [Supplied by others] using the Mounting bracket screws **(B)**.
2	Place the Back plate **(D)** over the Mounting bracket **(A)** and through the threaded rod.
3	Line up the Linear bar **(H)** with the threaded rod and mark where the Wall anchors **(E)** will be placed into the wall. Remove the Linear bar.
4	Insert the Wall anchor **(E)** into the wall and place the Linear bar over the Back plate **(D)** again. Secure the Linear bar to the Mounting bracket using the Nut and Washer **(G)** provided. Insert the Wall anchor screws **(F)** through the bar and into the Wall anchors **(E)**.
5	Connect the supply wires to the fixture wires using the supplied electrical wire connectors **(C)**. White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
6	Secure the Diffuser assembly **(D)** to the Linear bar **(H)** using theFixture mounting screws **(J)** provided.
7	Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use.
