Installing the fixture

please ensure the electrical breaker is in the Off position before commencing

- 1 Attach the Mounting bracket (A) to the Junction Box [Supplied by Others] using the Mounting bracket screws (B).
- 2 Line the Fixture bracket (G) up to the Mounting bracket (A) with the Back plate (D) in between and mark where the Wall anchors (E) will be placed. Remove the Bracket.
- 3 Insert the Wall anchors (E) into their marked spots. Secure the Back plate (D) and Fixture bracket (G) to the Mounting bracket using the Washer (H) and Nut (I). Secure the Fixture bracket to the wall by inserting the Wall anchor screws (F) into the Wall anchors (E).
- 4 Connect the supply wires to the fixture wires using the supplied electrical wire connectors (C). White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
- 5 Attach the Fixture assembly (J) to the Fixture bracket using the Fixture mounting screws (K) provided.
- 6 Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use.
