Package Contents

Part	Description	
A	Mounting bracket	1
B	Mounting bracket screws	2
C	Electrical Connectors	3
D	Fixture assembly	1

Installing the fixture

please ensure the electrical breaker is in the Off position before commencing

- 1 Use the 3CCT Switch on the top of the Fixture assembly (**D**) to set the desired kelvin temperature.
- 2 Attach the Mounting bracket (**A**) to the Junction Box [Supplied by Others] using the Mounting bracket screws (**B**).
- 3 Connect the supply wires to the fixture wires using the supplied electrical wire connectors (**C**). White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
- 4 Secure the Fixture assembly (**D**) to the Mounting bracket (**A**) by Threading the Knurled knobs through the three holes in the top of the Fixture assembly and twisting into place.
- 5 Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use.
