Installing the fixture

please ensure the electrical breaker is in the Off position before commencing

- 1 Remove the Threaded Plugs to change the Kelvin [2700k-3000k-3500k-4000k-5000k] and Wattage [10-15-20w] to the desired configurations.
- 2 Attach the Mounting bracket (A) to the Junction Box [Supplied by Others] using the Mounting bracket screws (B).
- 3 Connect the supply wires to the fixture wires using the supplied electrical wire connectors (C). White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
- 4 Secure the Fixture assembly (D) to the Mounting bracket (A) using the Allen screws (E) and Allen key (F) provided.
- 5 Seal with a waterproof silicon sealant [supplied by others]
- 6 Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use.
