Installing the fixture

please ensure the electrical breaker is in the Off position before commencing

- Loosely attach the Mounting bracket (**A**) to the Junction box [Supplied by Others] using the Mounting bracket screws (**B**) and mark where the Wall anchors (**E**) will be placed. Remove the Mounting bracket.
- Insert the Wall anchors (**E**) into their marked spots. Attach the Mounting bracket (**A**) to the Junction box [Supplied by Others] using the Mounting bracket screws (**B**). Secure the Mounting bracket to the wall by inserting the Wall anchor screws (**F**) into the Wall anchors.
- Connect the supply wires to the fixture wires using the supplied electrical wire connectors (**C**). White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
- Set the Kelvin to the desired color temperature. Secure the Fixture assembly (**D**) to the Mounting bracket (**A**) using the Washers (**G**) Allen Screws (**H**) and Allen Key (**I**) provided.
- Seal the Fixture to the wall using a Waterproof Silicon Sealant [Supplied by Others]
- Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use.
